

# Gin & Tonic

## GIN FROM ENGLAND

4cl € 6,00 **Bombay Sapphire**  
A soft, mild gin with reserved juniper notes. Citrus and pepper notes dominate.

4cl € 7,00 **Tanqueray No. Ten**  
Mild in taste, the botanicals are nicely balanced and successively accentuated. Beginning with juniper and then into citrus flavours of lime and grapefruit.

4cl € 7,00 **Beefeater**  
A lighter, traditional gin with juniper and light citrus notes without many "flourishes". Definitely not a gin to be enjoyed straight. The flavours are first highlighted in a gin and tonic.

4cl € 10,50 **Bathtub Gin**  
An exceptional and awarded gin only produced in very small batches. Characterised by clear cinnamon flavours, with cardamom, orange and clove.

4cl € 9,00 **Brockmans Gin**  
Not what is known and expected of a traditional gin. Intense fruit and berry taste. Strong blackberry, blueberry, grapefruit and orange notes.

4cl € 7,00 **Martin Miller's Dry Gin**  
A slightly flowery gin with a touch of citrus, nutmeg, cucumber and violet. Strong, but nevertheless still soft and creamy in character. A lovely, palatable and slightly flowery gin distilled with glacier water from the Arctic to 40 % vol alcohol content.

## GIN FROM SCOTLAND

4cl € 7,00 **Caorunn Gin**  
A dry, traditional Speyside gin with intense juniper. Marked mildness without alcohol notes. Quite light traits of apple and heather.

4cl € 9,00 **The Botanist**  
A complex and traditional, very elegant gin from the Bruichladdich Distillery with intense juniper notes. Light, sweet citrus notes. Hand-gathered botanicals.

4cl € 9,00 **Hendricks**  
A floral, very mild gin with faint juniper notes. Light rose notes with a hint of cucumber allow for a quite gentle taste.

## GIN FROM GERMANY

4cl € 12,00 **The Duke (Munich)**  
A very soft gin with gentle spice, malt and hop notes without alcohol notes. Incredibly long in finish and produced in small, bio-quality batches.

4cl € 10,00 **Monkey 47 (Black Forest)**  
A very soft gin with abundant floral and fruit notes accompanied by citrus flavours. In spite of a 47 % vol content, the alcohol is not tasted. Terrific, slightly creamy flavour with mild juniper notes.

4cl € 10,50 **Ferdinands Saar Dry Gin (Saarburg)**  
A fruity, lightly floral, awarded gin from the region. Exploding freshness with floral notes of Riesling and citrus. Unique taste profile with botanicals from local vineyards. An entirely wonderful gin.

4cl € 12,50 **Windspiel Dry Gin (Daun)**  
A very soft regional gin made from the regional Vulkaneifel potatoes. Fine, sweet wood and citrus notes with a wisp of juniper, alcohol notes will be sought in vain. With its wonderful lightness, also absolutely suitable for enjoying straight.

4cl € 12,50 **Spitzmund (Kiel)**  
A round and widely awarded, handcrafted gin with light plum, herb and citrus notes. Very complex and powerful in taste.

4cl € 11,00 **The Elephant Gin (Hamburg)**  
A complex, London dry gin. First with juniper and pine flavours followed by very well balanced sweeter flavours and an exotic finish. The very soft flavour is also remarkable in spite of its 45 % vol content. The producers actively support the protection of elephants in Africa with 15% of their revenue.

4cl € 11,50 **Gin Sul (Hamburg Altona)**  
Mediterranean gin with homage to Portugal. Fresh citrus notes combined with orange and a light floweriness along with a touch of herbs and rosemary.

4cl € 11,50 **Berliner Brandstifter (Berlin)**  
Awarded 7 times, filtered gin produced from French sugar beets with common Berlin city garden blossoms. Delightfully discreet and soft floral notes, flowery and fruity in taste with a breath of wild rose.

4cl € 10,00 **Gin Nigra (Trier)**  
A gin for Germany's oldest city Trier. A regional gin with equally regional ingredients. An absolute "freshness kick gin" with 4 different citrus flavors and a total of 21 botanicals mainly from the region.

## GIN FROM SPAIN

4cl € 10,50 **Gin Mare (Barcelona)**  
A highly Mediterranean and floral gin with flavours of rosemary and thyme. A light sweetness and faint juniper. An overall very mild and exceedingly flowery gin that entirely separates itself in taste from other gins.

## GIN FROM ITALY

4cl € 8,00 **Malfy Gin (Moncalieri)**  
Italian dry gin made from 5 botanicals with pure spring water from Monte Viso. This gives the gin his unique, clean and robust taste with a slight salty note.

## CHOOSE YOUR TONIC FOR THE GIN

0,2l € 3,50 **Thomas Henry (Berlin)**  
The high quinine content makes the tonic rather bitter with light floral citrus flavours. An entirely traditional tonic.

0,2l € 6,00 **Fever Tree (England)**  
Elegant flavours (hand-pressed bitter orange oil, raw sugar, citric acid) with a fine prickle and a delicate influence of quinine. The citrus flavours and bitter notes allow sufficient room for the gin.

0,2l € 6,00 **Fever Tree mediterranean (England)**  
Essential oils from flowers, fruits and herbs, such as lemon thyme and rosemary from the Mediterranean coast and the highest quality of quinine from the Democratic Republic of the Congo combine to create a harmonious aromatic composition.

0,2l € 4,00 **Goldberg (Germany)**  
A classic tonic water with the traditional bitter flavour with light citrus flavours reminiscent of tangerine and lemon peels.
